VAISHNAVI AKKI

Senior Cloud & DevOps Engineer

Denver, CO | avaishnavi2404@gmail.com | linkedin.com/in/vaishnavia24 | github.com/vaishnavia4

PROFESSIONAL SUMMARY

Cloud and DevOps Engineer with 6+ years of experience building secure, automated platforms on Azure, AWS, and GCP. Owns the end-to-end Azure platform for two products serving enterprise mortgage lenders, with results including a **30-40%** cut in infrastructure costs, customer provisioning reduced from over a week to minutes, deployment time cut from 2-3 days to under a day, and ISO 27001 certification. Deep expertise in Bicep and Terraform, Azure networking and security, and Azure DevOps CI/CD, with hands-on experience leading secure adoption of AI-assisted engineering tools. Certified across Azure, AWS, and Google Cloud.

CORE SKILLS

Cloud: Microsoft Azure (primary), AWS, GCP

Azure Services: App Services, Function Apps, Logic Apps (Standard & Consumption), Service Bus, Key Vault, Cosmos DB, Azure SQL, Storage, Redis, Microsoft Entra ID

IaC & Config: Bicep, ARM Templates, Terraform, Ansible

CI/CD: Azure DevOps (pipelines, repos, self-hosted agents, service connections, approvals), Jenkins, GitHub, Git, Maven, Docker, Kubernetes, Amazon EKS/ECS, GKE

Security & Compliance: RBAC, Least privilege, Azure Policy, Microsoft Defender, HashiCorp Vault, Key Vault, Snyk, SonarQube, ISO 27001, WAF, DevSecOps, Identity lifecycle (joiner/mover/leaver), Access provisioning and deprovisioning, Microsoft Defender XDR, Incident management (SEV1-SEV3), ISMS

Networking: Hub-and-spoke, VNets/subnets, VNet integration, Private Endpoints, Private DNS, VPN, Routing, Azure Firewall, Application Gateway, WAF, DNS, TCP/IP

Observability: Azure Monitor, Application Insights, Log Analytics, CloudWatch, Prometheus, Grafana, Splunk, PagerDuty, Azure Monitor alert rules & action groups, 24x7 on-call

Languages & Scripting: PowerShell, Python, Bash, .NET/C#, YAML, JSON, .NET 10, Node.js

AI / Automation: Claude Code, AI coding agents, MCP (Model Context Protocol) integrations, Power Automate, Playwright (test automation in CI/CD), AI agents for infrastructure automation, AI-assisted software development, MCP server development (Python), Claude Code plugins

PROFESSIONAL EXPERIENCE

Mortgage365 LLC Apr 2024 - Present

Cloud Engineer III *Colorado, USA*

- Took primary ownership of the DevOps and Azure platform function after a major team transition, running architecture, networking, CI/CD, security, identity, monitoring, and production support for two multi-tenant products: Horizon (in production for Navy Federal Credit Union, Lennar Mortgage, Planet Home Lending, and Carrington) and Atlantis.
- Reduced customer environment provisioning from over a week to minutes by designing and building a self-service onboarding and decommissioning platform run from a single administrative workflow.
- Cut Azure infrastructure costs by 30-40% by right-sizing resources, eliminating unneeded services, and building PowerShell cleanup automation, while maintaining security and reliability requirements.
- Cut infrastructure deployment time from 2-3 days to under a day by introducing Bicep company-wide and converting ARM templates into reusable, modular Infrastructure as Code.
- Led the technical implementation of ISO 27001 certification, owning infrastructure controls, policies, documentation, evidence collection, remediation, and technical responses during the audit.

- Designed hub-and-spoke networking with VNets, VPN, Private Endpoints, Private DNS, Azure Firewall, Application Gateway, and WAF, following Microsoft Cloud Adoption Framework principles.
- Own all CI/CD for Horizon and Atlantis in Azure DevOps (self-hosted agents, service connections, approvals), covering builds, deployments, unit tests, Snyk scans, Playwright and integration test runs, infrastructure pipelines, and Dynamics CRM deployments across DEV, QA, UAT, and production.

Vel True Technologies (Client: MetLife) Jun 2023 - Feb 2024

Cloud DevOps Engineer *Remote*

- Built Azure DevOps CI/CD pipelines supporting 20+ enterprise applications, automating builds, testing, artifact handling, and deployments across development, test, and higher environments.
- Provisioned Azure infrastructure with Terraform, making environments version-controlled, consistent, and repeatable.
- Deployed containerized applications with Docker and Kubernetes, improving scalability and deployment consistency across environments.
- Reduced manual operations work by automating infrastructure and application configuration with Ansible, PowerShell, Bash, and Python.

Tata Consultancy Services (Client: HSBC) Nov 2020 - Apr 2023

DevOps Engineer *Hyderabad, India*

- Migrated applications from traditional data centers to Amazon EKS and ECS, improving scalability and reducing infrastructure costs.
- Provisioned and managed AWS infrastructure (EC2, IAM, CloudWatch) with Terraform and automated configuration with Ansible playbooks and Jenkins.
- Designed AWS IAM roles and groups, and configured CloudWatch monitoring of EC2 fleets (CPU, disk, custom metrics) with alerting to development teams.
- Built Jenkins CI/CD pipelines with Git, Docker, and Maven for microservices-based applications, with automated tests integrated into each pipeline.

Fusion Software Technologies Jun 2018 - Oct 2020

Build and Release Engineer / Jr. DevOps Engineer *Hyderabad, India*

- Migrated on-premises infrastructure to Google Cloud Platform (GCP), reducing operational costs by 30%.
- Designed and implemented GCP solutions for enterprise clients with a focus on scalability, security, and performance.
- Built high-availability solutions using Google Kubernetes Engine (GKE), Cloud Functions, and Cloud Run.

CERTIFICATIONS

- Microsoft Certified: Azure Administrator Associate (AZ-104)
- AWS Certified Solutions Architect - Associate
- Google Cloud Certified: Professional Cloud Architect
- AWS Certified Cloud Practitioner
- Microsoft Certified: Power Platform Functional Consultant Associate
- Microsoft Certified: Azure Solutions Architect Expert (AZ-305) - In progress

EDUCATION

Bachelor of Engineering, Computer Science Osmania University, Hyderabad, India
